

Configuring Account Preferences

Account wide preferences can be configured under My School > Preferences. Options available include:

- **Single Sign-On:** Configure use of Identity Provider credentials (Google, Azure, AD FS, Active Directory, OAuth) to login to the Mosyle web panel, iOS/iPadOS app, or macOS app.
- **Action Logs:** Review actions taken within the account, including the user who initiated the action along with the date/time and corresponding IP address.
- **Your Logos & Icons:** Personalize your Mosyle account with school or district logos and icons. In this area you can upload your school/district logo to be displayed in the Mosyle Dashboard upon logging in.
- **MSP/Resellers:** Connect the account with a Mosyle registered MSP or Reseller.
- **Mosyle Beta:** Read about available Mosyle Beta features and programs, with the ability to opt-in to participate.
- **Other Settings:** Configure specific settings for iOS/iPadOS and macOS devices, as well as general account preferences, Admin Authentication Policy, and the Login Screen Wallpaper.
- **Subscription:** Check and manage subscription status.
- **Reports:** Access and download requested reports.
